

Fuel-servicing truck AT3-14-250

Fuel-servicing truck AT3-14-250 is used for transportation, temporary storage of light oils, feeding of autotractor machinery with filtered fuel with measuring of the feeding quantity. The tank consists of two capacities, each is 7 m³, which allows to transport two kinds of fuel in the same time.

MAIN TECHNICAL CHARACTERISTICS

1. Base truck chassis	KpA3-65101(65053)
2. Calibrated tank capacity, l	14300
3. Fully loaded mass, kg	24000
4. Total dimensions, mm:	
- length	9725
- width	2500
- height	3140
5. Pump	1 CBH-80A
6. Fuel filtration rating, um	20-25
